DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 and 22-34 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-13 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 1B wherein the method of detecting loss of signal on a pair of differential signal lines comprises generating a signal level from the voltages on the pair of differential signal lines, the signal level being averaged over a first period of time (step 106); generating a reference level from the threshold level and the detected common mode level, the reference level being averaged over a second period of time longer than the first period of time; and comparing the signal level to the reference level to determine if a signal is present on the pair of signal lines in combination with the rest of the limitations of the base claims and any intervening claims. Claims 14-20 and 22-34 are allowed because the closest prior art of record fails to disclose a circuit as shown in Figure 2 wherein the apparatus comprises a level generator (202) operable to detect a common mode level of voltages on a pair of signal lines (DAN, DAP); and operable to generate a threshold level referenced to the detected common mode level; a first charge pump (710 which is contained within block 203, see Figure 7A) operable by the voltages on the pair of signal lines to generate a short-term averaged signal level (INN); a second charge pump (720, which is also contained within block 203, see Figure 7A) operable by the threshold level and the common mode level to generate a reference level (INP) averaged over a longer term than the signal level (INN); and a comparator

operable to compare the signal level (INN) to the reference level (INP) to determine if a signal is present on the pair of signal lines in combination with the rest of the limitations of the base claims and any intervening claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
